Questions to think about and discuss at the Panel discussion this afternoon:

- What do you believe is the future of video conferencing?
- If you had no obstacles in your organisation, what would you do to put the use of video conferencing to further or better use?
- Where do you see the virtual world and social networking applications enhancing and supporting video conferencing?
- What do you think Victorian universities should do as a collective to further the use of video conference and related communication technologies?

*** The agenda and proposed speakers may change on the day.*
